

MOHAMED IBRAHIM ELSAYED IDRIS

CYBERSECURITY ENGINEERING GRADUATE

mohamedidres7@outlook.com | 0507816844 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Abu Dhabi, UAE

PROFESSIONAL SUMMARY

Cybersecurity Engineering graduate with hands-on experience in security monitoring, log analysis, network defense, red-team labs, virtualization, and technical support. Knowledgeable in SIEM concepts and Splunk fundamentals, with practical offensive-security development through CTF competitions and challenge rooms on TryHackMe and Hack the Box. Currently pursuing the Certified Ethical Hacker (CEH) certification.

EDUCATION

Bachelor of Science in Cybersecurity Engineering | Abu Dhabi University

Graduated 2026

Abu Dhabi, UAE

PROFESSIONAL EXPERIENCE

IT Department Intern | Abu Dhabi University

Jul 2026 - Aug 2026

- Provided technical support for account access, password resets, Microsoft applications, network printing, smart boards, and domain-authentication issues.
- Built and configured a VMware ESXi lab on a Dell PowerEdge server, including networking, datastores, virtual switches, port groups, virtual machines, and secure remote access through Tailscale.
- Worked with Active Directory, Microsoft Entra ID, and Microsoft Defender to review identity settings, authentication methods, sign-in and audit logs, endpoint alerts, and phishing simulations.

Freelance Administrator & Content Coordinator | Knowledge Group Consulting

Jan 2025 – September 2026

- Prepare structured course content and tailored training materials for ADNOC employees while coordinating a five-person team to deliver work on schedule.

Tutor | Sylvan Learning

Jun 2026 – September 2026

- Deliver one-to-one and small-group lessons across Mathematics, English, Physics, Islamic Studies, and introductory programming, adapting explanations to individual learning needs.
- Monitor progress, provide constructive feedback, and build student confidence through supportive problem-solving activities.

Call Center Representative | Abu Dhabi University

Aug 2025 - Oct 2025

- Updated and maintained the alumni database and responded to alumni inquiries by phone and email in a timely, professional manner.

Freelancer | Modern View Marketing Research & Consultancies

Feb 2025 - Jun 2025

- Completed mystery-shopping and taxi-evaluation assignments across Abu Dhabi, documenting cleanliness, service quality, professionalism, local knowledge, and the overall customer experience.
- Collected public survey responses and supported event logistics, coordination, and customer engagement at multiple locations.

Business Consultant | Knowledge Group Consulting

Jan 2024 - May 2024

- Conducted meetings with organizations across the Middle East and presented professional-development courses suited to individual and organizational needs.

Youth Organization Coordinator | Mubadala - Masary Program

Jul 2023 - Apr 2026

- Mentored teenagers participating in the Masary Program and supported activities focused on personal, communication, and leadership development.
- Assisted the Mubadala team with coordination and task execution to support smooth program delivery.

Archiving & Data Entry | Data Direct

May 2022 - Apr 2023

- Managed and archived HR-related documents using Jupiter ECM and ArcMate for projects involving Abu Dhabi Municipality, Abu Dhabi Ports, the Ministry of Interior, Anabeeb Pipes Manufacturing Factories, and Accuracy Plus Laboratories.

Data Entry & Customer Service | Accuracy Plus Laboratories

May 2021 - Sep 2022

- Handled high-volume patient inquiries during the COVID-19 pandemic, providing accurate guidance on laboratory results, testing protocols, and appointment scheduling.
- Processed and verified sensitive patient information to support accurate, timely delivery of test results.

LEADERSHIP & VOLUNTEERING

Event Coordinator | GDG on Campus - ADU | Dec 2024 - Dec 2025
Organized AI and programming workshops, seminars, venue setup, registration, and attendee communication.

Lead Volunteer | Undergraduate Research Competition | May 2023, 2024 & 2025
Delivered live technical support, delegated tasks, and trained volunteers for the engineering category.

Lead Registration Volunteer | ICOM | Feb 2023
Registered participants, speakers, experts, and executives while coordinating volunteer tasks.

Student Engagement Ambassador | ADU | Mar 2022 – August 2026
Supported career, cultural, alumni, and student-engagement initiatives requiring teamwork and communication.

President | ADU Gaming Club | May 2023 - May 2025
Managed volunteers, coordinated MEFCC activities, and delivered university events.

SKILLS

Security Monitoring & SIEM

SIEM and Splunk fundamentals, log analysis, alert review, event correlation, Microsoft Defender

Red Team & Offensive Security

CTFs, TryHackMe, Hack The Box, Kali Linux, Burp Suite, Nmap, reconnaissance, enumeration

Security & Networking

Wireshark, IDS concepts, DNS security, TCP/IP, network scanning, traffic analysis

Languages

Arabic: Native | English: Professional working proficiency (IELTS 6.5)

Identity, Systems & Cloud

Active Directory, Microsoft Entra ID, VMware ESXi, Windows, Linux, Tailscale, Microsoft 365

Programming & Development

TypeScript, Python, Java, JavaScript, SQL, Flask, Spring Boot, REST APIs, MySQL, PostgreSQL, Git/GitHub

Other Skills

Communication, teamwork, leadership, mentoring, customer service, coordination, multitasking, time management, problem solving

CYBERSECURITY PROJECTS

Red Team Practice & CTFs | TryHackMe, HTB, Kali Linux, Burp Suite, Nmap

Compete in CTFs and complete TryHackMe and Hack The Box rooms covering reconnaissance, enumeration, web testing, and attack-path analysis.

Security Log Analyzer & Monitor | In Development | TypeScript | GitHub

Developing a TypeScript authentication-log analyzer with validation and detection for brute-force, password-spraying, and distributed-login activity.

Virtualized Cybersecurity Lab | VMware ESXi, Ubuntu, Kali Linux

Deployed an isolated ESXi lab with an Ubuntu router, DHCP/NAT, Kali Linux, vulnerable VMs, virtual switches, and secure Tailscale access.

NetSentinel | Python, Flask, Unbound DNS, PostgreSQL

Co-developed a phishing-detection and DNS-security platform that filters malicious traffic and provides centralized monitoring.

SecurePass | JavaScript

Co-developed a web app and browser extension for password generation, strength and policy checks, common-password detection, and breach-exposure checking.

Raspberry Pi SIEM & Security Monitoring | Raspberry Pi, Wazuh, Linux

Deployed and configured Wazuh SIEM on a Raspberry Pi for centralized log collection and security monitoring, configuring agents, detection rules, and alerts to identify suspicious activity and security events.

Evil Twin Attack Simulation | Raspberry Pi, Kali Linux, Wireshark

Conducted a controlled rogue-access-point simulation and analyzed DNS, HTTP, and wireless traffic using Wireshark and tcpdump.

Raspberry Pi Network IDS | Python, Scapy

Contributed to intrusion-detection logic, simulated attack testing, alert review, log analysis, and validation of detection results.

SkillsSwap UAE | Java, Spring Boot, MySQL

Collaboratively developed a peer-to-peer skills exchange platform with authenticated users, REST services, and BCrypt password hashing.

Automatic Gate Control System | Raspberry Pi, TkCircuit, GPIO

Built an automated gate simulation using an ultrasonic sensor, servo motor, status LEDs, and state-machine logic.

Temperature Monitoring & Emergency System | Raspberry Pi, TkCircuit, GPIO

Created a temperature-triggered system with operating states, buzzer and LED alerts, and simulated ventilation control.

RELEVANT CERTIFICATIONS & TECHNICAL TRAINING

EC-Council

Certified Ethical Hacker (CEH) [\(In Progress\)](#)

TryHackMe

Hacker Holidays (Aug 2026); Pre-Security (Jun 2024); Introduction to Cyber Security (May 2024)

Udemy

AI & Cyber Security Mastery 2026 (Jul 2026); WordPress Security (Jul 2026)

Red Hat Academy

Red Hat System Administration I (RH124) (Jun 2026)

Cisco Networking Academy

Introduction to Cybersecurity (Feb 2026); Junior Cybersecurity Analyst Career Path (Dec 2025); CyberOps Associate (Jan 2025)

IBM Skills Network / Cognitive Class

Hadoop 101 (Nov 2025); Big Data 101 (Sep 2025); Python 101 for Data Science (Apr 2021)

Exploit3rs

Network Pentesting 101 Workshop (May 2024); Router Hacking Workshop (May 2024); CTF Fundamentals Workshop (May 2024)

Abu Dhabi University

Software Engineering Day 4.0 (Oct 2024)

Oracle Academy

Database Foundations (Jun 2023); Java Foundations (Jun 2022)

Purple

HTML5 and CSS3 (Feb 2023)

Endless Studios

Programming Capstone Program (Completed)
